

Wireless Connect

New Wireless Connect Makes Electric Tarp Systems Safer and Easier to Install Than Ever.

Aero's tarping systems have always been the fastest and easiest way to cover your load securely. Now we've developed a way to make electric tarp systems safer and easier to install than ever. Aero's new Wireless Connect eliminates the need to run wire from the motor to the dump/trailer rear pivot point and back to the power source. In addition, use of the Wireless Connect will ensure the motor operates at its optimal efficiency.

You save valuable installation time, improve motor performance, and add safety with the Wireless Connect. Find out more today—contact Aero at 1-800-535-9545

Designed to fit most new and existing electric tarping systems.

Features & Benefits

- **FAST INSTALLATION** — eliminates the need to run wire the length of the dump body/trailer. Simply run wire from the battery/motor to the Wireless Connect.
- **BETTER MOTOR PERFORMANCE** — reduced voltage drop, which enhances motor efficiency.
- **ADDED SAFETY** — contacts are installed on the truck frame and dump body/trailer, so the system can't operate when the dump is in the air.

Call Aero For All The Answers. We make it easy to get the Wireless Connect that's right for your needs. Just contact your Aero dealer or an expert Aero customer service technician at 1-800-535-9545. They're trained to handle all your ordering, installation, and application questions. Call today!
